Program Title

_GCD Graphic Design 2026 - 2028 (Fall Intake)

Campus(es) being delivered to:

NBCC Moncton Campus

Delivery Mode

Blended Delivery

Period of Delivery

Fall 2026 (From2026-09-08to2026-10-23)

Classroom

A3020/MS Teams

Course Schedule

On Campus: Monday and Tuesday 8:30 to 10:20 am, and

Online: Thursday 8:30 to 10:20 am

Credits

3

Grading Basis

Graded

Pass mark

60%

Description

This course provides learners with a foundation of computer software application skills utilized in today's workplace. Learners develop general skills in word processing, spreadsheets, and presentations, as well as electronic file management.

Course Outcome

Use electronic file management, word processing, spreadsheets, and presentation software effectively for the workplace.

Competencies

The following competencies will be achieved:

1. use word processing software to generate text and graphic documents that meet a variety of professional requirements
2. use spreadsheet software to create, analyze, and manipulate data
3. explore basic formulas and functions in spreadsheet software
4. create engaging and informative presentations utilizing slide presentation software
5. design presentations in a concise and organized manner
6. demonstrate proper file management

Essential Skills

Participation in the learning activities related to this course will reinforce the development of essential skills such as the following:

1. Manage Information
 - 1.1. Use information lawfully
 - 1.2. Access, gather, organize and interpret information using appropriate information systems and technology with the accuracy required to complete tasks
2. Participate in Projects and Tasks
 - 2.1. Plan, design, or carry out a project or task from start to finish with well-identified outcomes

Activities / Assessments

Procedure (8 %)	Weight(%)
File Management This assessment will demonstrate proper file management (Competency 6).	
Folder Structure Key skills in this practice are to create a folder structure to store your files for the program. Due: Thursday, September 10	8
Practical Work (30 %)	Weight(%)
Word Processing These assessments will use word processing software to generate text and graphic documents that meet a variety of professional requirements (Competency 1).	
Flyer Key skills in this practice are inserting text and pictures, textboxes, formatting text and footers. Due: Thursday, September 17	10
Resume Key skills in this practice are creating and modifying tables and sharing documents online. Due: Thursday, September 17	10
Newsletter Key skills in this practice are formatting text as columns, editing pictures, inserting screen clips, symbols and special characters. Due: Thursday, September 24	10
Presentation (32 %)	Weight(%)
Presentation Software These assessments will use presentation software to design presentations in a concise and organized manner, and create engaging and informative slides (Competencies 4 and 5).	
Orientation Key skills in this practice include creating a new presentation, entering text, presentation views, presentation themes, speaker notes, adding and formatting pictures, printing a presentation, and Header and Footer options. Due: Thursday, October 1	8
Leadership Key skills in this practice include Reuse slides, deleting and moving slides, contiguous and non-contiguous slides, transitions, and animations. Due: Thursday, October 1	8

Success	8
Key skills in this practice include using smart guides and the ruler, inserting text boxes and shapes, using the eyedropper, SmartArt, WordArt, and Shape Styles.	
Due: Thursday, October 8	
Marketing	8
Key skills in this practice include screenshots, embedding videos, recording audio, background images, charting data with line and bar charts.	
Due: Thursday, October 8	
Exercise (30 %)	Weight(%)
Spreadsheets	
These assessments will use spreadsheet software to create, analyze, and manipulate data and explore basic formulas and functions (Competencies 2 and 3).	
Expenses	10
For our first assignment in Excel, we will create a spreadsheet with monthly expenses.	
Due: Thursday, October 15	
Inventory	10
Key skills in this practice are entering data in a range, using arithmetic operators, quick analysis tool, and absolute and relative cell references.	
Due: Thursday, October 22	
Revenue	10
Key skills in this practice are creating and editing pie charts and What If Analysis.	
Due: Thursday, October 22	
Other	Weight(%)
Plagiarism and Academic Integrity	
NBCC is committed to the highest standards of academic integrity and honesty. Students are urged to become familiar with and uphold Policy 1111 Academic Integrity.	
Plagiarism detection tools such as Turnitin and Grammarly are integrated into Brightspace and may be used.	
Remote proctoring using Respondus Monitor and LockDown Browser may also be used to ensure the academic integrity of assessments. Alternate testing arrangements may be arranged in advance (ie. live proctoring on campus).	

Use of Generative AI

Academic integrity is a core principle at NBCC, and all students must uphold this principle, whether using AI-based tools or otherwise. For this class, responsible use of AI-based tools in completing coursework or assessments must be done per the following:

- You must clearly identify the use of AI-based tools in your work. Any work that utilized AI-based tools must be clearly marked as such, including the specific tool(s) used. For example, if you use ChatGPT, you must cite "ChatGPT. (YYYY, Month, DD of query). "Text of your query." Generated using Open AI. [website link]. See this article by APA on citing ChatGPT and other AI-generated works in your writing: <https://apastyle.apa.org/blog/how-to-cite-chatgpt>
- You must be transparent in how you used the AI-based tool, including what work is your original contribution. An AI detector such as Turnitin or GPTZero may be used to detect AI-driven work.
- You must ensure that using AI-based tools does not violate copyright or intellectual property laws.
- You must not use AI-based tools to cheat on assessments.
- You must not use AI-based tools to plagiarize without citation.

Required Resources

Microsoft Word, Excel, and PowerPoint
Access to Brightspace
Classroom Management Rules (provided by instructor)
A Positive Attitude
A willingness to learn and have fun

The instructor will provide a link to the textbook during the first week of classes.

NBCC is committed to the highest standards of academic integrity and honesty. Students are urged to become familiar with and uphold NBCC's policy concerning Academic Integrity. The plagiarism detection tool, Turnitin, is integrated into Brightspace and may be used.

Remote proctoring using Respondus Monitor and LockDown Browser, may also be used to ensure academic integrity of assessments. Alternate testing arrangements may be arranged in advance (i.e. live proctoring on campus).

Approved Electronically

NBCC promotes transparency in the application of its policies and procedures. Subsequently, numerous policies that apply to students can be viewed at <https://documents.nbcc.ca/>. Policies and procedures are regularly reviewed and updated. Please be sure to check the site regularly for the most up-to-date document.

Course Delivery and Evaluation of Learning NBCC is committed to ensuring quality delivery and evaluation methods in its courses and programs while providing supports and assisting students in achieving success, recognizing that there are circumstances when an unsuccessful grade may not reflect student learning. A Supplemental Evaluation Measure may be offered to students who receive an unsuccessful grade in a credit course, provided necessary criteria are met.

Grading and Academic Recognition NBCC uses a grading/credit system to indicate course grades which are translated to a transcript of marks that reflects the history of the student's academic progression and performance.

Academic Integrity NBCC is committed to promoting academic integrity throughout the college community. Academic honesty and integrity are fundamental expectations and requirements of students as they assume responsibility for their learning and actions.

Student Code of Conduct NBCC believes that learning in an adult education setting offers holistic development of the learner. A climate of collaboration and respect of self, of others and of established rules and regulations is the setting by which an effective environment of learning is established.

Accessibility Services NBCC will provide reasonable accommodation to students with disabilities in order to promote academic success. If you feel you may require accommodations or other forms of support while at NBCC, please talk to a Learning Strategist at your campus.

College Office of Research Enterprise (CORE) NBCC encourages incorporating research into course activities to enrich the learning experience. When research activities involve human participants, instructors should contact reb@nbcc.ca for guidance on when research ethics review is required, and how to apply.
